

# January's Demo Artist, Elizabeth Reed

Elizabeth will share her experiments with various materials on aluminum "C Bond", Chinese silk chiffon and frosted Mylar. Elizabeth's recent work, "The Vortex Scrolls," is made of Frosted Mylar hung on steel rods as scrolls. The translucent Mylar holds paint as well as metallic pigment and graphite powder.

Elizabeth has experimented with stretching silk chiffon over colorful oil paintings, then making marks with acrylic mediums applied with brushes as well as ruling pens. The layers merge two images, making a holographic effect.

February 15-17, Elizabeth will be teaching an Experimental Painting Techniques Workshop at the Women's Club in Boynton Beach.

**A Message  
from the  
President**

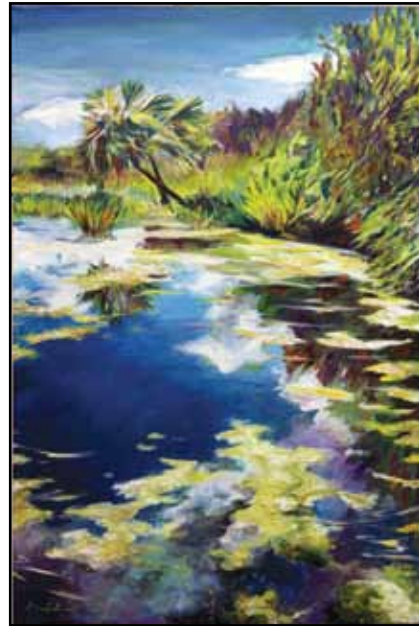

Dear Members;

Happy New Year to all of our DAL members and their families. Let's hope that 2011 brings health, happiness and prosperity to all of us, our friends and our country. These are trying times, and we must make the best of it, and artists, along with most other businesses all over the country are feeling the downturn of the economy. The difference is that we can turn to our art for pleasure, for artists are a different breed, they derive much pleasure from what they create. So take out the brush, pencil, pen or whatever you use and create. It does the heart and soul good.

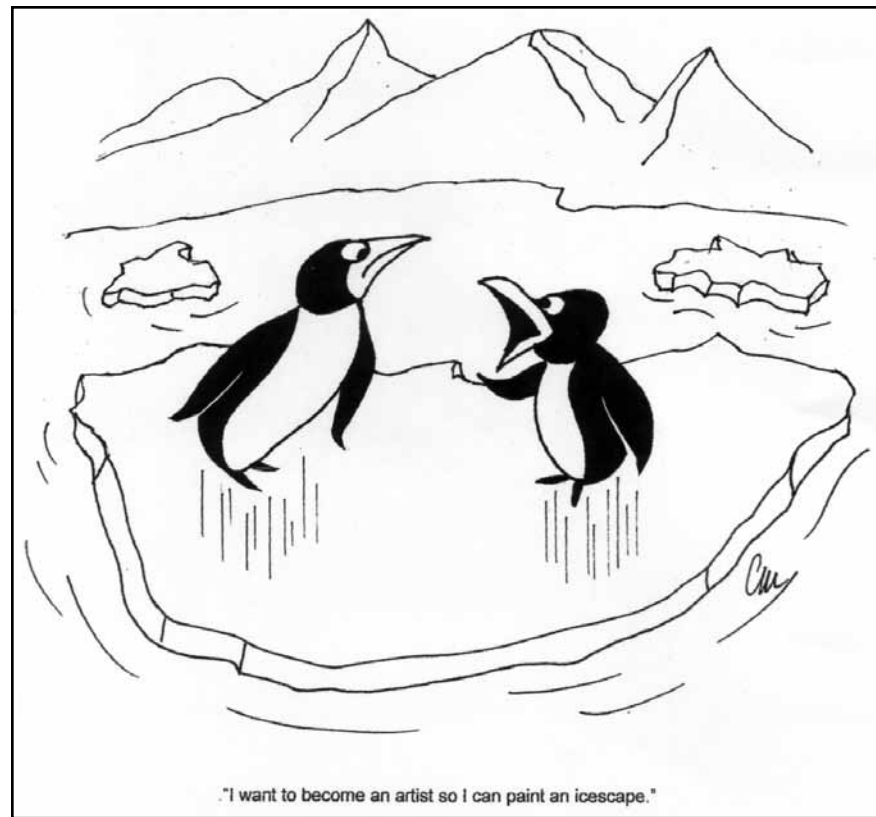

We look forward to many good things at DAL in 2011. Sign up for a workshop and learn a new technique, attend the meetings and see fabulous demo artists share their knowledge with you. Volunteer to help with the many jobs within DAL. We can always use a helping hand. Help make 2011 SPECTACULAR!!
